

FM Tactical Gears introduces its Full Body Bullet Proof Armour, a robust and mission-ready defense solution designed to provide maximum ballistic protection for high-risk tactical operations. Built for military, law enforcement, and special forces personnel, this armor system offers complete front, back, side, neck, shoulder, and groin protection—ensuring full-body coverage without compromising mobility.

Manufactured using high-grade ballistic materials and engineered to NIJ Level III or IIIA standards (customizable per operational needs), this full-body armor is compatible with hard and soft plates, enhancing its ability to counter both rifle threats and fragmentation.

#### Key Features:

Coverage Areas: Chest, Back, Sides, Shoulders, Neck, Groin

Ballistic Protection Level: NIJ Level III / IIIA (customizable)

Compatible with: Level 3+ plates (front, back, side)

Material: High-strength ballistic fabric with optional hard plate inserts

Design: Modular and ergonomic for ease of movement

Weight Distribution: Optimized for balance and reduced fatigue

Adjustability: Fully adjustable straps and suspension system for a custom fit

Durability: Water-resistant, flame-retardant outer shell

#### Additional Features:

Quick-release mechanism for emergency removal

Enhanced padding for long-wear comfort

MOLLE webbing for attachment of tactical gear

This full-body armor is trusted for high-threat engagements, riot control, VIP protection, and frontline deployments, ensuring unmatched safety and operational efficiency.
