

FM Tactical Gears proudly offers the MICH (Modular Integrated Communications Helmet) Ballistic Helmet, a high-performance head protection system engineered to meet the demanding needs of military, law enforcement, and tactical operators. Built from Aramid Fiber Kevlar, this helmet delivers NIJ Level IIIA protection, ensuring reliable defense against ballistic threats and high-speed fragmentation.

What sets the MICH Helmet apart is its integrated ear protection, providing extended coverage without compromising compatibility with communications systems or comfort. Designed for maximum protection, stability, and situational readiness, the MICH Helmet is drop-tested and certified to meet international ballistic and quality standards.

Key Specifications:

Protection Level: NIJ Level IIIA (Standard 0106.01)

Ballistic Material: Aramid Fiber Kevlar

Protection Area: 1250 cm² (with full side & ear coverage)

Weight: Approx. 3.5 lb

Size Range: 21.6 – 24.8 inches (adjustable fit)

Colors: Black, Green, Desert

Bullet Resistance: 9mm, .357 SIG FMJ, 3–5 hits

Fragmentation Resistance: V50 up to 2212 ft/s (674.2 m/s)

Certifications: CE, NIJ, ISO, BSCI

Technical Features:

Built-in ear coverage for enhanced lateral protection

Fully adjustable 4-point chin strap with leather grip and quick-release buckle

Hydrophilic foam padding for moisture absorption and superior fit

Rapid-adjust suspension system for optimal comfort and helmet stability

Compatible with communication devices, eyewear, and gas masks

Non-magnetic, non-corrosive, and temperature-resistant components

Drop-tested for shock absorption to EN-397 standards

High-quality military-grade materials with an easy-clean exterior

Multi-hit protection across all helmet zones

Ergonomic design minimizes fatigue during prolonged operations

Whether on patrol, in active combat, or during high-threat tactical missions, the MICH Ballistic Helmet offers trusted protection, enhanced coverage, and mission-ready performance.
